## Grandpa's Audio Mods

### Grandpa's Voice Mod

This is my original audio mod with various voices including:

- Duke Nukem,
- Team Fortress,
- Left 4 Dead,
- some female voices.
- Gun reloaded (up, batter up)

### Grandpa's Music Mod

#### [Examples of Sounds in the Music Mod](#)

This is a conversion of Noble Platoon's Music Mod into the current format. This mod was one of my favorites and I have been wanting to convert it over for years, and finally figured out how.

It does the following:

- Replaces the in battle music with sounds of combat. Planes flying overhead, machine gun fir, explosions, etc
- Replaces the music n the hangar with music from the 1940's
- Replaces the music for Victory (Churchill, FDR, or Patton speech)
- Replaces the music for Draw (Churchill or Patton speech)
- Replaces the music for Defeat (Hitler speech)
- Intro music (before a battle) is a selection of WWII swing music and patriotic marches. Selections are 1 minute to 1.5 minutes in length and may intrude on batle for the first 30 seconds or so.

**Grandpa's Notification Mod** – replaces notification sounds for

following:

- Ally Base Capture
- Enemy Base Capture
- Sixth Sense (from game menu you can select 2 variants or the user defined)
- Ally killed
- Countdown timers

#### **INSTALLATION:**

- For the Music Mod ONLY – Copy/move the audioww folder from the **music\_mod\_only** folder in the archive (zip) to the res\_mods/x.x.x folder, where x.x.x is the current game version
- For Voice Mod ONLY – Copy/move the audioww folder from the **voice\_mod\_only** folder in the archive (zip) to the res\_mods/x.x.x folder, where x.x.x is the current game version
- For Notification Mod ONLY – Copy/move the audioww folder from the **notification\_only** folder in the archive (zip) to the res\_mods/x.x.x folder, where x.x.x is the current game version
- For all audio mods – Copy/move the audioww folder from the **combo\_voice\_music** folder in the archive (zip) to the res\_mods/x.x.x folder, where x.x.x is the current game version
